

ASHWIN MADHU

Senior Java Backend Developer

8075319645 | ashwin.madhu1996@gmail.com | linkedin.com/in/ashwin-madhu-8a3005194

PROFESSIONAL SUMMARY

Results-driven Java Backend Developer with 5+ years of total professional experience. Currently at Zoho Corporation (3.5+ years), architecting and maintaining core backend features for Zoho Desk — one of India's flagship enterprise SaaS products. Proficient in Java, REST APIs, OOP design patterns, and database-driven systems. Strong collaborator with a proven track record of delivering scalable, reliable, and maintainable code in agile, cross-functional teams.

TECHNICAL SKILLS

- Core Languages: Java (primary), C, C++, C#, Python (beginner)
- Backend & Frameworks: Java Backend Development, .NET Core, REST APIs, Web APIs, PHP (Laravel)
- Frontend (supporting): HTML, CSS, JavaScript (ES6), TypeScript, Angular, jQuery
- Databases: MySQL, SQL Server
- Tools & Platforms: Git, Jira, Windows, Linux
- Blockchain (Academic): Ethereum, Web3, Smart Contracts

WORK EXPERIENCE

Zoho Corporation

July 2022 – Present

Java Backend Developer – Zoho Desk

- Design, develop, and maintain scalable backend features for Zoho Desk, a leading enterprise help desk SaaS product, using Java.
- Collaborate with cross-functional product and engineering teams to architect solutions that improve product functionality and user experience.
- Ensure high availability, performance, and reliability of backend services — focusing on scalability under enterprise-level load.
- Conduct and participate in rigorous code reviews; champion and uphold clean coding standards across the team.
- Diagnose and resolve complex backend issues, optimizing performance and reducing system downtime.
- Contribute to system design discussions and help evaluate technical approaches for new feature development.

Experion Technologies

December 2021 – June 2022

Software Developer

- Developed backend and full-stack features for a retail platform serving an Australian-based retail chain using C# and Angular.
- Ensured seamless integration between frontend and backend components; contributed to REST API design and implementation.

Docking Station Technologies Pvt. Ltd.

December 2020 – November 2021

Junior Software Developer

- Built and maintained e-commerce (Ecart) product features across multiple client projects.
- Gained foundational experience in web application development, backend logic, and database management.

EDUCATION

Master of Computer Applications (MCA)

College of Engineering, Trivandrum (APJ Abdul Kalam Technological University) | 2020 | CGPA: 7.65

Bachelor of Computer Applications (BCA)

Swamy Saswathikananda College (Mahatma Gandhi University) | 2017 | CGPA: 8.29

KEY PROJECTS

Customer Loyalty System (Blockchain)

- Developed a blockchain-based solution to eliminate coupon forgery for retail loyalty programs.
- Tech stack: Ethereum Blockchain, Web3, jQuery.

Blockchain-Based Bidding Platform

- Built a trustworthy, tamper-proof auction/bidding platform on the Ethereum blockchain.
- Tech stack: Ethereum Blockchain, Web3, jQuery.

Virtual Classroom Portal

- Designed and implemented an online teaching portal facilitating remote education workflows.
- Tech stack: .NET, jQuery.

ACHIEVEMENTS & CERTIFICATIONS

- NPTEL Certified – Cyber Security
- 2nd Prize – Grand Hackathon conducted by Rajagiri College & TCS
- Rank 29 – All Kerala MCA Entrance Exam (LBS)
- Student Ambassador – Blockchain Academy Innovation Club, College of Engineering Trivandrum
- Winner in multiple Coding Events at college technical fests
- Conducted technical workshops on Blockchain technology
